

## Assignment 1 – Voice over IP (VoIP)

---

- Write a report about your previous experiences related to Voice over Internet Protocol (VoIP) in your company, and your company's approach to deal with the explosion happening for VoIP applications. How it will handle the high QoS requirements for VoIP and how it will deal with the VoIP QoS Impairment Parameters (Delay, Jitter, Packet Loss ... etc)?
  
- Deadline: Monday March 16th.
